

Technical Data Sheet:

#PG-405

10.0mil Satin Textured Scratch-Resistant Polycarbonate Laminate (2 yr)

PG-405 is a 10.0 mil satin textured scratch-resistant polycarbonate laminate. PG-405 is a high clarity film with non-glare properties, high UV/fade resistance, high scuff/abrasion resistance, hides scratches and fingerprints, and is an overall outstanding laminate for various displays and point of purchase graphics.

| Product Number | #405 |
|-------------------------|---|
| Film | |
| Film Type | Polycarbonate |
| Finish | Satin Textured Scratch-Resistant |
| Film Thickness (mils) | 10.0 |
| Gloss (60°) | 15 |
| Adhesive | |
| Adhesive Type | Clear Permanent Acrylic |
| Liner | |
| Liner Type | Polyester |
| Liner Thickness (mils) | 1.5 |
| Environment | |
| Application Temperature | ≥ 50F |
| Service Temperature | -40F to 176F |
| Outdoor Durability | Up to 2 years |
| Chemical Resistance | 10% resistance to ammonium hydroxide, detergent, distilled water, gasoline, and hydrochloric acid |
