

# Technical Data Sheet:

## #PG-747

### 9.0mil Matte White Bond Paper (180gsm)

PG-747 is a 9.0 mil matte white bond paper and weighs 180gsm. PG-747 has the advantages of being bright white, having excellent line acuity, high color density, fast dry, and excellent compatibility for display and technical graphics applications. This product can be used in aqueous (pigment and dye-based) wide format digital printing. Common applications for PG-747 include: photo prints, posters, certificates and awards, promotional materials, and POP/retail signage. Please note that PG-747's instant dry, matte finish provides "plug and play" printing when selecting standard "coated paper" or "heavyweight coated paper" mode on most printers. Lamination is optional for PG-747. Should you choose to laminate this paper, we recommend PG-004, PG-104, and PG-204.
